

Injectable DPC system for rising damp treatment

- Can be used to treat rising damp in almost all types of masonry walls:
 - solid brick walls
 - cavity walls
 - random form stone and rubble infill walls etc
- Fast and easy to install
- 1-component, ready to use
- Consistent application rate
- Does not require a special application tool
- Spillage and mess virtually eliminated from the site
- Low hazard, water-based, non-caustic, non-flammable
- Very low wastage

Item Code:
1081NJ06 - 600ml sausage
