

Model No: CT100

Pipe Thermostat

The CT100 from Salus Controls is a practical surface mounted mechanical thermostat. The thermostat can be used to switch a circulating pump, boiler or most common motorised zone valves. The CT100 will allow the user to control the temperature of Domestic Hot Water Cylinders (both un-insulated and foam lagged), and is also supplied with a wire strap which enables the unit to be used as a pipe thermostat.

Features

- Compatible with foam lagged cylinders
- Can be used as pipe thermostat

Supply:	230Vac 50Hz
Rating Max:	16 (4) A SPDT
Output:	230Vac 50Hz
Scale:	20 - 90°C
Size:	W-73 H-105 D-40
