## Additional information

This product requires tactile warnings if supplied to the general public  
This product requires child resistant fastenings if supplied to the general public

## 2.3. Other Hazards

### General Hazards

Product dust may be irritating to eyes, skin and respiratory system. When cement reacts with water a strong alkaline solution is produced. Prolonged contact with wet cement or wet concrete may cause serious burns because they develop without pain being felt e.g. when kneeling in wet cement even when wearing trousers. Frequent inhalation of large quantities of cement dust over a long period of time increases the risk of developing lung disease.

### PBT and vPvB assessment

The components in this formulation do not meet the criteria for classification as PBT or vPvB
