

## TYPE W

### CHEMICAL IDENTIFICATION Polypropylene with colorant

#### 1. PHYSICAL DATA

|     |                           |           |
|-----|---------------------------|-----------|
| 1.1 | Melting/Softening point   | Above 90  |
| 1.2 | Boiling point             | N/A       |
| 1.3 | Decomposition temperature | N/A       |
| 1.4 | pH – Value                | N/A       |
| 1.5 | Solubility in water       | Insoluble |
| 1.6 | Odour                     | None      |
| 1.7 | Physical form             | Solid     |

#### 2. STORAGE AND HANDLING

|     |   |                                      |
|-----|---|--------------------------------------|
| 2.1 | Special precautions for transport and storage | None                                 |
| 2.2 | Incompatible substances                       | None                                 |
| 2.3 | Hazardous decomposition products              | None                                 |
| 2.4 | Hazardous polymerisation                      | None                                 |
| 2.5 | Protective measures                           | N/A                                  |
| 2.6 | Preventive measures                           | N/A                                  |
| 2.7 | Disposal                                      | In accordance with local regulations |

#### 3.IGNITION & COMBUSTION

|     |                          |           |
|-----|--------------------------|-----------|
| 3.1 | Flash Point              | N/A       |
| 3.2 | Extinguishing media      | All types |
| 3.3 | Explosion hazard         | None      |
| 3.4 | Special fire precautions | None      |

#### 4. TOXICOLOGICAL SPECIFICATIONS

None

#### 5. EMERGENCY AND FIRST AID PROCEDURES

Eyes wash out with water
